

The Seated- Right Removable Checklist

Tape this by your case-out station. One pass before any denture, partial, or overdenture ships. Catch the misses that cause adjust visits and remakes.

The Seated-Right Removable Checklist

RUN THIS BEFORE ANY REMOVABLE CASE SHIPS

One pass at the front desk before a denture, partial, or overdenture ships. Every box checked means the case is ready. A minute here saves weeks of adjust visits.

THE SIX RECORDS

- ☐ Impression or scan captures the full denture-bearing area, borders included.

- ☐ No voids, drags, or bubbles at the border.

- ☐ Bite registration is included, taken at the right height.

- ☐ Opposing arch or appliance is included.

- ☐ Tooth shade, tooth mold, and gum shade are written down.

- ☐ Prescription has the arch, material, appliance type, and due date filled in.

BEFORE IT LEAVES

- ☐ Midline, smile line, and lip support notes are written down.

- ☐ Patient likes and dislikes from the old appliance are noted.

- ☐ A wax try-in is requested for any full denture or big partial.

- ☐ A direct line or contact for questions is on the prescription.

Tape this by the spot where your cases ship. When every box is checked, send it to Dickerman Dental Prosthetics.

A note from your lab

Send your next removable case to Dickerman. Scan the code to start.

Print this playbook. Tape page one to your operatory wall. Then order from Dickerman Dental Prosthetics so we can fulfill what you just sold.
